HONEYWELL INTERNATIONAL INC
9201 SAN MATEO BLVD NE
ALBUQUERQUE NM 87113-2227

Dear Sirs:

The amendment to the affidavit indicating a change of model has been received and is not acceptable. The records cannot be changed upon request by the owner since airworthiness has already been issued. The model and serial number of an aircraft are determined by information received from the manufacturer, from an approved application for Airworthiness Certificate, or a written statement provided by an FAA Airworthiness Inspector or Designated Airworthiness Representative (DAR). Our records indicate the description of the aircraft INTERNATIONAL GMAV, serial number 07010320.

If your records differ or a change has occurred, you should consult an FAA Airworthiness Inspector or DAR regarding the change. When we receive either an approved Application for Airworthiness Certificate or written statement from the appropriate party, the record will be corrected and a revised Certificate of Aircraft Registration issued.

If you require further assistance, please contact the Aircraft Registration Branch at (405) 954-3116 or toll free 1-866-762-9434.

Sincerely,

DODSON VANESIA

Subject: Modification of Registered UAV Model Designation

Dear Sir/Madam,

Honeywell International, 9201 San Mateo Blvd. NE, Albuquerque, NM 87113, is requesting a modification to the model number of our Unmanned Aerial Vehicle. The UAV (N3047W) was originally registered with a model designation of gMAV on 12 December 2007, and filed on 20 December 2007 under conveyance number Z014173.

We are requesting that the model designation be changed from gMAV to a new model designation of T-Hawk. This will allow Honeywell International to maintain a consistent set of documentation for potential customers.

Honeywell International has enclosed a recording fee of \$5.00.

Should you need any additional information or if you have any questions, please contact the following individuals: (1) for technology matters, contact Nader Tubbeh, Chief Engineer (505-828-6624); (2) for registration matters, contact Ragon Michael, FAA liaison (505-828-5526).

Thank you for your attention to this request,

Vaughn Fulton PMP
Honeywell Unmanned Aerial Systems Program Manager
